

Dear Members of the Western New York Harness Horsemen's Association,

My name is Ray Fisher, and I am respectfully announcing my candidacy for a position on the Board of the Western New York Harness Horsemen's Association.

I have been driving full time in Western New York for the past 18 years. Prior to that, I drove and trained horses at Northfield Park, where I gained valuable experience that helped shape the horseman I am today. Over the years, I have had the opportunity to learn the sport from multiple angles, both on and off the track, and I continue to carry that perspective into everything I do in this industry.

I am currently serving on the Track Committee, where I have worked to represent the interests of horsemen and women while contributing to discussions that impact the day-to-day operations and long-term health of racing in our region. I take that responsibility seriously, and I believe it reflects my ongoing commitment to this community.

I am running for the Board because I believe my knowledge and experience can benefit the horsemen and women of Western New York. I am not afraid to voice an unpopular opinion when I believe it will serve the greater good of the membership. I understand that progress sometimes requires difficult conversations, and I am prepared to be part of those discussions in a constructive and respectful way.

Western New York has become my home. I am proud to race here, and I plan to continue competing in this region until I retire. My goal is to help ensure that our horsemen and women are represented fairly, and that the sport we all depend on continues to grow stronger for the future.

I respectfully ask for your support and your vote in the upcoming election. I would be honored to serve you on the Board and to work on behalf of all members of our association.

Thank you for your time and consideration,

Ray Fisher
