

Andy Lowery for Owners Representative

My name is Andy Lowery, and I am asking for your support for the Owners Representative position on the Horsemen's Board.

I am a second-generation horse owner with roots in harness racing that go back to the 1980s. After spending many years involved in the sport, I am once again an active owner and remain passionate about the future of racing.

Many of you know me as the guy handing out race photos for my wife, Wendy, the longtime track photographer at Batavia Downs. Being around the backstretch and the people who make this industry what it is has given me a firsthand look at both the challenges and the opportunities we face.

Now that I am retired, I have the time and dedication to fully invest in improving our racing program and representing the interests of horse owners. I believe in open communication, listening to fellow horsemen and horsewomen, and working to make our sport stronger for both current participants and future generations.

I would appreciate your vote for Owners Representative. Together, we can continue working toward a better future for harness racing.

Thank you,

Andy Lowery
